

MILAE NETWORK

WHITEPAPER

Feel the future of Crypto Currency

INTRODUCTION

The word “Milae” is a korean word which means future.

The Milae Network is a Hyper Deflationary token . Which works on Binance Smart Chain . The token is created for the future awareness of the Cryptocurrency world . We are here to stand a community to develop a new block chain that helps in the making crypto currency transaction as easy and fast as a online money transaction .

Rewards :-

The Rewards mechanism in our token is also a biggest level in Cryptocurrency world . We redistributed our 8.5% fee of our transaction fee to the holders in the form of Milae Network token which is highest till date in the Cryptocurrency market. That means Holders can generate a massive income by just HOLD \$MLNT.

Future Plannings :-

Now a days the biggest problem in the Cryptocurrency is all about transaction of the Cryptocurrency from one wallet to other . In this we are getting our new wallet and decentralized exchange which makes your transaction superfast and the network fee is also the least in all the market . Our plannings is all about that to provide a space in the world of Cryptocurrency which makes the transaction easy and hassle free .
